### Where Our Meals Go

STOP HUNGER NOW distributes its meals in developing countries through feeding programs operated by partner organizations. These partners promote education, encourage children to attend school, improve the health and nutrition of students, address gender inequalities, spur economic growth, combat child labor, and create a platform for tackling global issues. In addition to supporting school feeding and other development programs, Stop Hunger Now also provides meals in response to crisis relief.

STOP HUNGER NOW continues to be a significant contributor in U.S. and international disaster response efforts, providing more than 5 million meals and 400 tons of aid to support the victims of the Haiti earthquake in 2010 and nearly 200,000 meals to victims of Hurricane Sandy in 2012.

### Stop Hunger Now

STOP HUNGER NOW has been fulfilling its mission to end hunger across the globe for 15 years. Stop Hunger Now has packaged and distributed more than 100,000,000 meals to 65 countries.

### **The STOP HUNGER NOW Meal Packaging Program**

Year round, community leaders and volunteers from corporations, churches, educational institutions and civic organizations package dehydrated, high protein, and highly-nutritious meals which are used to save lives in developing countries around the world.

### **A System of Volunteers**

The meals are packaged by volunteers – like you. Through a fun, hands-on and engaging assembly line process, a team of 40 volunteers can package 10,000 meals in just two hours. Meal packaging events provide a rewarding experience for anyone of any age.

### **Nutrition-Packed and Portable**

STOP HUNGER NOW meals are highly nutritious, dehydrated meals comprised of rice, soy, vegetables, flavoring and essential vitamins and minerals. Each package provides a reasonable serving for six and is easy to transport, store and distribute to those in greatest need.

### **Be Part of the Solution**

The reality is that the world hunger crisis is surmountable. There are enough sustainable food resources, processing potential and distribution know-how to feed everyone. The STOP HUNGER NOW meal packaging program is recognized as a viable solution to combat hunger among the world’s most impoverished.
